MSc Computing graduate. Dissertation on spotting unusual queries in a university database. Placement year with a campus security operations team.

Skills

SQL
PostgreSQL
Python
Linux
Threat modelling
SIEM log review
Git

Experience

Security Operations Intern
Northwind Campus IT, Leeds
June 2024 - June 2025
- Reviewed SIEM alerts during on-call shadowing and wrote a one-line note for each alert I closed.
- Wrote SQL to pull weekly account-lockout counts for the identity team.
- Documented three phishing incidents for the service desk, including which mailbox rule was abused.
- Helped improve security.

Research Assistant
School of Computing, University of Example
October 2023 - May 2024
- Cleaned a CSV of 40,000 query logs and loaded them into PostgreSQL.
- Built a Python script to flag queries outside office hours.
- Worked on a project with the team.

Education

MSc Computing, University of Example, 2025
Dissertation: anomaly detection on database audit logs.

BSc Computer Science, University of Example, 2023
